The Safest Investments Are those that do not fluctuate during disturbed conditions of the money or stock market. First class trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "safe" investments. They are not subject to the usual responsibility of individuals or corporations, and are exempt from taxation as personal property. We can supply such investments in amounts from \$1000 up to \$100,000. Moderate interest rates and investments.

HUNDREDS ARE HURT, BUT NONE SEVERELY

Police and Cavalry Trample on Visitors in Effort to Clear Route for Women.

In spite of the fact that hundreds of persons were crushed, trampled and taken ill in the great jam in Pennsylvania avenue during the suffrage parade, the hospital records today show that not one was seriously injured. In fact, with but two or three isolated cases, the accident victims all left the hospitals after having their injuries dressed, while most of those who were hurt or taken ill were treated without being taken to a hospital.

From the time the crowd first assembled until the parade was over and the crowds disbanded, the Emergency Hospital ambulance made forty-eight runs. About forty persons were treated at the hospital, and the surgeons estimate that nearly 200 more were given first aid along the line of march. Others were treated by private physicians and women who had fainted were carried into stores and revived without an ambulance being summoned.

Crowds Delay Ambulance. The Emergency ambulance was greatly handicapped by the mass of humanity that jammed the Avenue and the absolute failure of the police to even clear a narrow path made it necessary for the driver to literally force his way through the crowds.

At the intersection of streets the jam was so thick that in many instances the ambulance could not work its way through. The police were unable to clear a path, and in several instances it was necessary to carry persons who needed treatment nearly half a block on stretchers.

Dr. Harry S. Lewis, the superintendent, had anticipated a busy day and had made all arrangements for taking care of a big crowd. Extra cots had been provided and every facility was at hand for handling emergency cases.

Toes Pinched by Motors. The police automobiles which made an unsuccessful attempt to force the crowds back over the toes of many persons standing along the Avenue. These persons were held forward by the crowd behind them, and were powerless to get back from the machines, but fortunately none was seriously injured.

The mounted police and soldiers, who tried to force the crowd back also trampled on many persons, but so far as could be learned no one was badly hurt in this manner.

LABOR DEPARTMENT FORMALLY CREATED

Taft Signs Bill—W. B. Wilson to Be Named Secretary by New President.

President Taft signed the bill today providing for and creating a Department of Labor. William B. Wilson, of Pennsylvania, will be named by President Wilson as the first Secretary of Labor.

In signing this bill President Taft overrode the objection of Charles Nagel, Secretary of Commerce and Labor, who believes that parts of the bill are unconstitutional and who thinks that the department is unnecessary.

Urgent pleas for the signing of the bill were made to President Taft yesterday by Governor Sulzer, of New York, who has long favored the idea; Samuel Gompers, and Frank Morrison. In signing the measure, President Taft waived his own objections to the lack of correlation now existing between many bureaus and the departments under which they are placed.

The creation of a new department will result in demand for office space, added appropriations, one more seat at the Cabinet table, and will bring to Washington one more high official having in charge a very large and important part of the Government's relations with the working classes.

Cupid Must Wait on Inauguration Fete. No chance to get married in Washington today. Many sad swains who journeyed from afar to witness the inauguration and incidentally get married thronged the front of the City Hall this forenoon, but "nothin' doin'." A few went to Rockville, Maryland's "Gretna Green," with more or less good luck, but even the Marylanders shut up shop early and hastened to the National Capital.

Beginning at 8 o'clock the fireworks exhibition will be held on the White House Ellipse. The promise is made by the fireworks committee, of which Isaac Gane is chairman, that the spectacle will eclipse any former exhibition of the kind ever held in Washington. Many of the larger pieces were designed especially for the occasion, among them a flight of 100 bombs with the discharge of a gigantic bomb showing in variegated colors the name "Wilson." Another similar piece will show the name "Marshall."

The display will include 1,500 rocket bombs, 500 batteries, 1,100 colored lights, 100 tourillions, 200 ceyers, 500 flashes, 100 dandelions, the tall or 25 girandolas, 50 aeroplanes, 200 aerolites, 100 mines, 50 balloons, 100 mines, 15,000 candles, Niagara Falls set piece of transformation, and a special American flag bomb.

First on the program will be the firing of 101 guns, the national salute. These will be fired from the steel mortars. To enable the thousands who will witness the exhibition, to reach the streets safely, the grounds will be brilliantly illuminated at the close of the display.
